

The Love Event - Love From The Inside Out

<https://silosolo.com/236323>

Summary

Robert Mack is an Ivy League educated positive psychology expert, inspirational speaker, and published author. He has worked in various roles in television and media. Despite experiencing deep unhappiness, Robert found unlimited peace and unconditional happiness when he attempted suicide. This led him to postpone suicide and research happiness. Robert's journey eventually led him to become a happiness coach and pursue a career in modeling, acting, and writing. He also studied applied positive psychology. Along the way, he discovered the importance of love and relationships in the pursuit of happiness and collected flawed or false premises about love and happiness from his clients.
